PFS Graph Version A:02
http://vetusware.com/download/PFS%20Graph%20Version%20A_02/?id=12798
The GRAPH program makes it easy to produce attractive graphs as a standard part of your business or personal repertoire. With GRAPH, you can organize your data into one of three types of graph bar, line, or pie. GRAPH can accept data directly from the keyboard or it can retrieve data from VisiCalc or PFS files.   This archive contains three 160K disk images: Disk 1: PFS:Graph Disk 2: Sampler Disk 3: PFS:Graph Spare Copy   Important: These disks contain copy protection. You must use the appropriate tool to write the images to a real disk, or use an emulator that supports one of the copy protected disk image formats.   For your convenience, an unprotect has been applied to the raw disk image and extracted file set.   Designed for use with PC-DOS 1.0 or higher.

PFS:File Version A:01
http://vetusware.com/download/PFS_File%20Version%20A_01/?id=12797
PFS File is a flat-file database that lets you create entry forms, store data, and retrieve it in various ways.   This archive contains two 160K disk images. A master copy, and a "spare" copy. Important: These disks contain copy protection. You must use the appropriate tool to write the images to a real disk, or use an emulator that supports one of the copy protected disk image formats.   For your convenience, an unprotect has been applied to the raw disk image and extracted file set.   Designed for use with PC-DOS 1.0 and higher.
