Microsoft Access Business Information Access Program 1.01
http://vetusware.com/download/Microsoft%20Access%20Business%20Information%20Access%20Program%201.01/?id=14471
First released in 1985, the Microsoft Access Business Information Access Program is a telecommunications program that features VT100, VT52 and TTY terminal emulation, macros, a powerful scripting language, self-learning scripts, data import/export facilities, multiple windowed sessions, and built in support for a variety of on-line services.   This is not related to the later Microsoft Access database product. Archive includes three 360k floppy disk images.   Version 1.01 is NOT copy protected. (Version 1.00 was copy protected)
