AMD 80C287 Demo Disk
https://vetusware.com/download/AMD%2080C287%20Demo%20Disk/?id=16960
Advanced Micro Devices (AMD) 80C287 Math Coprocessor Demo Disk.

AT Disk Format Utility 2.50
https://vetusware.com/download/AT%20Disk%20Format%20Utility%202.50/?id=16965
Western Digital AT Disk Format Utility

Graver 2.21
https://vetusware.com/download/Graver%202.21/?id=16961
Diskette verification utility with graphical display (VGA mode), shows where the errors are located
on physical media.

GSETUP 3.1
https://vetusware.com/download/GSETUP%203.1/?id=16958
GSETUP is a generic SETUP program for the IBM-PC/AT Personal Computer and all TRUE
compatibles. The program is designed to allow you to set/modify CMOS ram values to tell the
system what the time, date, type and number of floppy disk drives and hard disks, monitor type,
etc., are for your personal computer. Author: Juan Jimenez

MAXTEST 1.2
https://vetusware.com/download/MAXTEST%201.2/?id=16966
Test program for the Adaptec 1540A SCSI to AT host adapter

QBENCH 1.21
https://vetusware.com/download/QBENCH%201.21/?id=16964
Quantum Data Access Time Benchmark

SGATFMT 3.0
https://vetusware.com/download/SGATFMT%203.0/?id=16963
SGATFMT3 (Seagate Format) is a lo-level formatting utility designed for AT 286/386/486 systems,
only. SGATFMT3 does not use the system BIOS to access the drive, but instead uses the AT
register command set. This means that it is not necessary to pre-set a CMOS drive-type prior to
the lo-level format. SGATFMT3 is designed and LIMITED to work with the following Seagate disc
drive interfaces: ST412 (both MFM and RLL), ESDI (with controller bios disabled), and AT/IDE
(with certain limitations). SCSI interface disc drives are not supported.

SRXTEST 2.10
https://vetusware.com/download/SRXTEST%202.10/?id=16959
This program will tell you what Cyrix Microprocessor Upgrade is compatible with your system.

SRXTEST.COM will tell you whether or not a 386SX can be upgraded to a 486.
