File Splitter with Parity 1.2

<http://vetusware.com/download/File%20Splitter%20with%20Parity%201.2/?id=13402>

My file splitter with parity. Works like RAID except its with files instead of drives. I made some changes to it. Now it can copy the splitted fils to set of drives/paths that you can set in the settings. You can also change the program that were the audio/video files stream with. A new tutorial video is comming soon.
