https://andrewtobias.com/managing-your-money/ MANAGING YOUR MONEY - March 09, 2017   "This was meant to be the only software you'd ever need. It paid your bills, estimated your taxes, managed your portfolio, helped with your life insurance — it even had a word processor built in.   I still use the final DOS version — Version 12 — even though the world has long since passed DOS by. I feel like one of those people on a remote island who still get by with the old customs, the old language, as the bulldozers creep ever closer." - AppleSeed 2017 -
