The Oregon Trail, well known road crossing the Rocky Mountains used by the settlers in the 19th century.   MECC made an educational game based on this memorable part on the USA story. The player must cross the oregon trail and fight against the difficulties the settlers had. Hunting for food, trading supplies, survive LOTS of possible deaths (snakes, typhoid, dysentry...).   Should you succeed in your journey, your points will be based on your profession, the number of settlers still alive, your remaining cash and much more.
