4DOS 3.01
 http://vetusware.com/download/4DOS%203.01/?id=15174
4DOS is designed to help you get the most out of your IBM PC or   compatible system. It replaces COMMAND.COM, the command   interpreter that comes with all versions of MS-DOS and PC-DOS.   You'll find 4DOS provides a wide variety of capabilities   COMMAND.COM can't, ranging from a vastly enhanced DIR command, to   point-and-shoot file selection for any command, to the ability to   completely redefine your system's commands. Yet 4DOS is fully   compatible with COMMAND.COM.   4DOS is a "DOS shell" (a program that gives you access to DOS   functions and commands), but it's unlike most DOS shells on the   market. Virtually all of these shells are designed to isolate   the novice user from the DOS command line. 4DOS, on the other   hand, is intended to make DOS easier to use and to make you more   productive while working at the command line. It provides   enhancements to most of the DOS commands, as well as more than 40   new commands. These improvements make 4DOS a much richer and   more powerful working environment than COMMAND.COM, without   sacrificing the compatibility, flexibility and control you get   from working at the command line. If you're tired of the   limitations of COMMAND.COM, you'll love 4DOS! Shareware.

As-Easy-As 3.01
 http://vetusware.com/download/As-Easy-As%203.01/?id=15167
o 2048 rows by 256 Columns- Uses Sparse Memory Matrix for efficient   storage.   o POPUP or PANEL menus - You decide which is best for you!   o Powerful Graphics- Can create BAR, STACKED BAR,LINE, XY ,PIE, HILO   SEMI-LOG and LOG-LOG graphs on your Epson compatible printer , All   without every leaving the spreadsheet!   o Intelligent Recalculation - Its blazing speed derives from the fact   that it only calculates those cells it needs to calculate.   o Over 50 {MACRO} programming commands....   o Over 43 @FUNCTIONS for Math, Statistics and Finance....   o 3D-SIMULATION, You can reallocate spreadsheet memory upto 100 planes. o NO INSTALLATION, On almost every IBM PC compatible it will run   immediately with out time wasting hardware installation.   (Runs on CGA,MONO,MGA,EGA,AT&T .... video/graphics cards.)   o HELP screens , built right into the program , over 50 pages...   o BUILT IN UTILITIES, text FIND/REPLACE, MACRO recording, AUDITING   GOALSEEKING and more.....   (Other spreadsheets sell these features as expensive ADD-INS)   o Highly LOTUS/123 compatible (1-2-3 trademark of LOTUS Development Corp). Shareware.

Flu-Shot Plus 1.7
 http://vetusware.com/download/Flu-Shot%20Plus%201.7/?id=15172
FLU_SHOT+ is a successful anti-virus product, affording its users   very sophisticated protection methods and techniques. However, to   give some users additional protections and an easier method of   implementing these protections required some thought on our part. Shareware version.

InstaCalc 2.5
 http://vetusware.com/download/InstaCalc%202.5/?id=15168
InstaCalc is a full power   memory resident spreadsheet which you can pop up through   application programs and which can share data with those   programs.

Shareware.

NEC Multispeed System Disk 3.20
http://vetusware.com/download/NEC%20Multispeed%20System%20Disk%203.20/?id=15181
NEC Multispeed System Disk. MS-DOS version 3.20 with several Multispeed utilities.

Power Worksheets for 1-2-3
http://vetusware.com/download/Power%20Worksheets%20for%201-2-3/?id=15170
We think you have made a wise choice in buying Lotus 1-2-3. With it, your only
obstacles to solving a problem are to supply the data and define the worksheet formulas
to analyze it. While we cannot help you supply the data, we can help with the
worksheet by giving you, in this package, six predefined worksheets to perform common
analyses. Shareware.

QubeCalc 3.02
http://vetusware.com/download/QubeCalc%203.02/?id=15169
QubeCalc is a TRUE three dimensional spreadsheet (as opposed to some two
dimensional spreadsheets which let you link cells of multiple spreadsheets
together). It gives you the ability to look at your data in more ways than you ever imagined
possible. You can enter data into the QubeCalc WorkQube just as you would with
any other spreadsheet. You could treat the WorkQube as if it were 64 separate
spreadsheets which are linked together, but it is much more flexible than just that.
Shareware.

SWAPDOS 1.00
http://vetusware.com/download/SWAPDOS%201.00/?id=15175
SWAPDOS provides an application independent method for one PC/MS-DOS application to
run another, even if both would normally not fit in memory at the same time. A typical use is to
temporarily swap out dBASE to make room for your text editor, or to swap out a text editor so that
you can run memory hungry compilers, linkers, or even debuggers without losing your place in
an editing session. SWAPDOS works by copying conventional memory used by the currently
running application to expanded memory, extended memory, or to a disk file, thereby freeing
conventional memory used by the application. SWAPDOS then runs the desired program before
restoring the original environment. Shareware.

Virus Scan 3.5 V63
http://vetusware.com/download/Virus%20Scan%203.5%20V63/?id=15173
To run the regular Scan program, type: SCAN (press enter) To run the memory
resident Virus Shield, type: VSHIELD (press enter) To run the network version, type:
NETSCAN (press enter) To extract File Shield, copy FSHLDARC.COM to a disk with
at least 100K free space. Then type: FSHLDARC (press enter) After extracting, run
File Shield by typing: FSHIELD (press enter) This version of Virus Scan looks for
97 different viruses. Shareware version.

Whiterock Alternative Spreadsheets
http://vetusware.com/download/Whiterock%20Alternative%20Spreadsheets/?id=15171
To use, run your Lotus 1-2-3 Rel. 2 compatible spreadsheet from a directory containing all
these spreadsheets. If it doesn't automatically load, load (retrieve) AUTO123.WKS (or

AUTO123.WK1).   This worksheet will present a menu of the other spreadsheets, which can be loaded in automatically.
