#### LANTastic 3.0

<http://vetusware.com/download/LANTastic%203.0/?id=15875>

A peer to peer local area network OS.

#### LANTastic 4.1

<http://vetusware.com/download/LANTastic%204.1/?id=15876>

A peer to peer local area network OS.

#### Ontrack Disk Manager 5.10

<http://vetusware.com/download/Ontrack%20Disk%20Manager%205.10/?id=15877>

Ontrack Disk Manager is a tool bundled with hard drives that automates the process of formatting, partitioning, and installing BIOS overlay software if needed.

#### Turbo EMS 4.01

<http://vetusware.com/download/Turbo%20EMS%204.01/?id=15874>

Turbo EMS is an Expanded Memory Manager (EMM), compatible with the LIM EMS 4.0. The Turbo EMS software allows most application and system programs that support the LIM EMS to access up to 32 megabytes of Expanded Memory, depending on how much disk space or AT-type extended memory you have installed on your system. You don't need to have special EMS hardware.

#### Zorro

<http://vetusware.com/download/Zorro/?id=15873>

Zorro is yet another lackluster game by Capstone that wasted the opportunity to leverage a well-known literary figure, in this case the handsome renegade Spanish hero. In this outing, you must help Zorro navigate the California wilderness as he races to stop the evil Don Cortez from discovering an ancient treasure. The best way to describe the game is probably to call it "Prince of Persia without the finesse" \*\*\*WORKS perfectly in DOSBox\*\*\*
