DacEasy Instant Accounting 1.0 DOS/Windows, Summer, 1992 This was rescued from a warez CD, so it is not possible to provide floppy disk images. First time I've seen it in the wild, so think its worthwhile, even in a plain dump file. - Scrounged up what info I could find quickly and included it in separate zip. - Just install and use. - Somewhere I read it requires DOS 3.1 and 512K ram, or Windows 3.0 and 1MB ram.
