3D Studio MAX r2.5.alpha r2.5.a013
https://vetusware.com/download/3D%20Studio%20MAX%20r2.5.alpha%20r2.5.a013/?id=16819
KINETIX 3D Studio MAX r2.5.a013 Alpha version a013; - March 16, 1998   Although this is only a
prerelease of the upcomming 3dsmax 2.5, it has so many new features and is so stable that we
cant do anything else but recommend it in all possible ways. Some of the new features are a
finally full nurbs implementation including trimming and different kinds of rails, a new faster more
stable boolean for which all old 3ds users have been waiting for a displacement map shader slot
in the material editor (Lume where are ya :)) and improved scripting .   Whats more all maxr2
plugins will work in max 2.x as well   Install: Unzip MAXA013f.ZIP in a clean directory with the -d
parameter.

Peachtree Accounting for Windows 5.0
