Microsoft Word 5.5 for DOS English fully working setup files 5.5 English
https://vetusware.com/download/Microsoft%20Word%205.5%20for%20DOS%20English%20fully
%20working%20setup%20files%205.5%20English/?id=17416
Verified fully working installer with many printer drivers. I have reconstructed the full installer by
combining with files from different sources. Installation process has been verified using an XT
compatible computer. Unzip as it is to your target computer, run setup.exe and install to a different
path, needs about 4 MB with dictionary, thesaurus, learning module, printer driver etc.

Microsoft Word 5.5 for DOS German fully working setup files 5.5 German/Deutsch (DE)
