Publish Pac 2.0
https://vetusware.com/download/Publish%20Pac%202.0/?id=17714
Publish Pac is a set of drivers and a small scanning application for use with DEST scanners. It does not do much without the scanner, but it is interesting as it runs under Microsoft Windows 1. It includes a Windows 1.04 runtime, so DOS users would not have to purchase Windows.   It was intended to be used in conjunction with desktop publishing programs, such as Aldus PageMaker. This copy also include TextPac, an OCR tool.   Archive includes nine 5.25" 360k floppy disk images.
