Paint Shop Pro X
https://vetusware.com/download/Paint%20Shop%20Pro%20X/?id=17831
Tried and tested on a virtual Windows XP (SP3) system, running on VirtualBox under a Windows
10 Host system. Should probably also work on genuine vintage hardware natively running
Windows XP SP3. CD *.iso image, "COREL_PSP_X.iso" and serial number (text file)
are located in the downloadable *.zip file.
