Solidworks 2000 2000
https://vetusware.com/download/Solidworks%202000%202000/?id=17886
SolidWorks 2000 Installation Instructions --- 1) Run the SolidWorks Installation by double-clicking the setup.exe file in the directory you extracted the files. 2) Follow the steps to install SolidWorks, after completion please note the following: - If you installed PhotoWorks: - if you performed a "New installation" in step 1) copy the "data\lworks" folder from your SolidWorks 99 folder to your new SolidWorks 2000 folder.   - download the pw[lang].zip file (where [lang] is your OS language) and unzip it into the SAME folder where you have just installed SolidWorks 2000. Serials included.
