Backgammon 1.1
http://vetusware.com/download/Backgammon%201.1/?id=12428
"Backgammon is played on a board with triangular designs called points. The colored disks are called stones. Each player has 15 stones. The object of the game is to move all your stones from point to point around and then off the board before your opponent does the same." (freeware from PC Magazine)

CDPLAYER 1.0
http://vetusware.com/download/CDPLAYER%201.0/?id=12426
Published in PC Magazine, November, 1992. "This multimedia Windows utility lets you play audio disks in a CD-ROM drive and control track selections as you would on a conventional CD player."
