PhotoRun 1.00E

http://vetusware.com/download/PhotoRun%201.00E/?id=12727

PhotoRun is programmed exclusively for the pictures taken by PhotoRun Digital Still Camera. Pictures can be opened directory from the memory cards (COMPACTFLASH ™). You can also open the pictures saved in floppy disks or hard disks. The only formats that PhotoRun is able to open are either PhotoRun format or BMP format.   PhotoRun is equipped with Index function, which catalogs the picture files.   You can edit, adjust or arrangethe pictures that are open.   Once you have opened the pictures you can copy them into the clipboard, also save them in BMP format.
