Most of the original titles were created by the software company Music Pen in collaboration with Microsoft and Scholastic Press, the publisher of the Magic School Bus book series. The class is decorating their classroom for "Rainforest Day." Wanda brought a "Right-Away-Rainforest Toolbox" that could do the job, but some "bio-clones" are missing from the kit. Ms. Frizzle takes the class on a field trip to the Costa Rican rainforest to find the missing bio-clones. This is the only game where Ms. Frizzle's middle name is mentioned. This game was the first of the CD-ROM series not to be based on any of the books. It was also the last one created by Music Pen.
