Windows NT 3.1 SP1 11/1/93

<http://vetusware.com/download/Windows%20NT%203.1%20SP1%2011193/?id=11808>

This is the SP1 service pack for Windows NT 3.1 with x86 processors (Win NT US Service Pack 1. 11/1/93 NT update). It contains the original MS-DOS executable Self-extracting PKZIP archive, which can be extracted with 7-zip or others apps directly. The files extracted from it are also included.

Windows NT 3.1 SP2

<http://vetusware.com/download/Windows%20NT%203.1%20SP2/?id=11809>

This is the SP2 service pack for Windows NT 3.1 with x86 processors (WinNT US Service Pack 2 for Intel). It contains the original MS-DOS executable Self-extracting PKZIP archive, which can be extracted with 7-zip or others apps directly. The files extracted from it are also included.
