http://vetusware.com/download/FLY8%20Flight%20Simulator%201.00/?id=11818
VGA (SVGA) Combat Flight Sim // req. 386+ // sources (DEC C) for v1.02 included

Sam & Max Hit the Road
http://vetusware.com/download/Sam%20_%20Max%20Hit%20the%20Road/?id=11820

Scala Multimedia MM100
http://vetusware.com/download/Scala%20Multimedia%20MM100/?id=11823
Read the file called !!README_TO-INSTALL-SCALA-MM100.txt. After installation, it is to take a
step more . That of having to launch a Test set with the correct graphics card and sound card or it
may not function properly.

Splash!
http://vetusware.com/download/Splash%21/?id=11822
To launch: Simply open Dosbox and drag'n'drop the executable file called "splash.exe"

UniVBE Universal VESA Bios Extension v5.1
http://vetusware.com/download/UniVBE%20Universal%20VESA%20Bios%20Extension%20v5.1/
?id=11815
Universal VESA BIOS driver, makes super VGA cards   compatible with VESA BIOS Extension
(VBE 2.0) programming standards so   that games, CD-ROMs, utilities and other applications will
work properly (and faster) in high resolution modes. It also includes chip detection,   power
management, monitor centering and compatibility & performance   testing utilities. It now supports
over 160 different SVGA chips
