<http://vetusware.com/download/123R23J%20for%20FMR%202.3J%20JA/?id=12912>

IOS Source Code 11.2-8

<http://vetusware.com/download/IOS%20Source%20Code%2011.2-8/?id=12913>

This is the leaked IOS source code. This version covers m68000 & MIPS R4000 based devices such as: c1000,c1005,c4000,c3620,c3640,c7200,c7100,ls1010,rsr,as5200,ls2020,ls2080,ags,alc.

This source will not build cleanly as it lacks a SNMP generation tool. All builds were done on Solaris, using cygnus SPARC-m68k, SPARC-MIPS and SPARC-PowerPC cross compilers (gcc).
