File Splitter with Parity 1.1

<http://vetusware.com/download/File%20Splitter%20with%20Parity%201.1/?id=13390>

A file splitter with Parity, HTTP Server for streaming pieces with out unsplitting them. Its just like RAID that has a extra file for parity so if one file is gone or corrupt you can recover it. This version has the missing winparity.bat from the other upload that was uploaded here Youtube video will be uploaded soon and will be available at this link <http://wpyoutube.delphijustin.biz>
