Babble! 2.0

<http://vetusware.com/download/Babble%21%202.0/?id=11924>

Babble! is a creativity tool for writers. Babble! analyzes samples of text for style and content, and then mixes them together to generate a steady stream of nonsensical prose. Mix Shakespeare with Harold Robbins, or Firesign Theatre with Dick and Jane! Add special effects like Stutter and Subliminal! You can even import your own writings! All text is controlled on-the-fly using Babble!'s unique "text-mixing studio", and changes appear instantly!
