Drain C: Drive version

[http://vetusware.com/download/Drain%20C\\_%20Drive%20version/?id=13527](http://vetusware.com/download/Drain%20C_%20Drive%20version/?id=13527)

This is a small old "joke" program that one could leave running on a DOS computer. When activated it will helpfully drain all water from your hard drive. Note: It is supposed to spend some time accessing the drive to make it look like it is doing something - you won't see that in an emulator or a fast computer.
