IBM OS/2 Warp 3 / 4 Fixpack CD German 3.0 / 4.0 (DE)

<http://vetusware.com/download/IBM%20OS2%20Warp%203%20%204%20Fixpack%20CD%20German%203.0%20%204.0%20DE/?id=13955>

Fixpack-CD (non official build) for German OS/2 Warp 3.00 and 4.00 including fixpack "XRGW040" and "XRGM015". Just burn on CD and start "ServiceW30" or "ServiceW40" on a command prompt from CD. -Or- copy and unzip the archive and start from there. YOU DON'T NEED FLOPPIES FOR THIS!
