Google Chrome XP installer 49.0.2623.112

<http://vetusware.com/download/Google%20Chrome%20XP%20installer%2049.0.2623.112/?id=14190>

Google has since disabled their on-line Chrome browser installer for XP but this is the executable version of the installer. You still get the nasty (Chrome is no longer supported for XP)message but it will run with no problems.
