<http://vetusware.com/download/IBM%20OS2%2032-Bit%20Pre-release%20Revision%206.123/?id=14671>

Likely the first OS/2 2.0 beta distributed by IBM, from April 1991. No WPS, no Windows, no Boot Manager, no built-in DOS 5. The last OS/2 2.0 made by Microsoft.
