Infocom Adventure Collection

<http://vetusware.com/download/Infocom%20Adventure%20Collection/?id=14665>

The Infocom Adventure Collection: Border Zone, Cutthroats, Infidel, Plundered Hearts, Trinity and bonuses Planetfall and Zork 3. This ISO image is not an exact copy, as it lacks the MacIntosh versions and the on-disc documentation. The documentation can be found many places on the Internet. This image has additionally been modified to install a better set of icons under Windows. It has been tested under Windows for Workgroups 3.11.

Infocom Comedy Collection

<http://vetusware.com/download/Infocom%20Comedy%20Collection/?id=14666>

The Infocom Comedy Collection: Bureaucracy, Hollywood Hijinx, Nord and Bert, Ballyhoo and bonuses Planetfall and Zork 1. This ISO image is not an exact copy, as it lacks the MacIntosh versions and the on-disc documentation. The documentation can be found many places on the Internet. This image has additionally been modified to install a better set of icons under Windows. It has been tested under Windows for Workgroups 3.11.

Infocom Fantasy Collection

<http://vetusware.com/download/Infocom%20Fantasy%20Collection/?id=14667>

The Infocom Fantasy Collection: Seastalker, Wishbringer, Enchanter, Spellbreaker, Sorcerer and bonuses Planetfall and Zork 2. This ISO image is not an exact copy, as it lacks the MacIntosh versions and the on-disc documentation. The documentation can be found many places on the Internet. This image has additionally been modified to install a better set of icons under Windows. It has been tested under Windows for Workgroups 3.11.

Infocom Lost Collection

<http://vetusware.com/download/Infocom%20Lost%20Collection/?id=14670>

The Infocom Lost Collection: Arthur, Journey, Leather Goddesses of Phobos and Shogun, together with Zork: The Undiscovered Underground and three samplers. This is not an official Activision release but a supplementary collection in the style of the five official Infocom Collections which supplies the four games not included in the official Collections. This collection includes only the DOS versions of the games and lacks on-disc documentation. It has been tested under Windows for Workgroups 3.11.

Infocom Mystery Collection

<http://vetusware.com/download/Infocom%20Mystery%20Collection/?id=14668>

The Infocom Mystery Collection: Deadline, Lurking Horror, Moonmist, Suspect, Witness, Sherlock and bonuses Planetfall and Zork Zero. This ISO image is a recreation of the Mystery Collection, as I could not find a copy online. While Planetfall is available on the CD, it is not installed by the Windows installer; you will need to do so manually. The documentation can be found many places on the Internet. This image does not contain the MacIntosh versions or the on-disc documentation. This image has additionally been modified to install a better set of icons under Windows. It has been tested under Windows for Workgroups 3.11.

Infocom Sci-Fi Collection

<http://vetusware.com/download/Infocom%20Sci-Fi%20Collection/?id=14669>

The Infocom Science Fiction Collection: A Mind Forever Voyaging, Starcross, Stationfall, Suspended, Hitchhiker's Guide to the Galaxy and bonuses Planetfall and Zork 1. This ISO image is not an exact copy, as it lacks the MacIntosh versions and the on-disc documentation. The documentation can be found many places on the Internet. This image has additionally been modified to install a better set of icons under Windows. It has been tested under Windows for Workgroups 3.11.

Mad Bomber 0.1.5

<http://vetusware.com/download/Mad%20Bomber%200.1.5/?id=14661>

The Mad Bomber is loose in the city and he's dropping bombs everywhere! It's your job to catch them before they hit the ground and explode. Luckily, you have a set of trusty buckets to extinguish the bombs with. "Mad Bomber" is a clone of Activision's classic Atari 2600 console game, "Kaboom!," by Larry Kaplan, with spruced-up graphics and sound effects, and music.

Penguin Command 1.3

<http://vetusware.com/download/Penguin%20Command%201.3/?id=14662>

Penguin Command is a clone of the classic Atari game "Missile Command", but has better graphics and sound. You have to minor the screen size to bring it to work.

Vectoroids 1.1.0

<http://vetusware.com/download/Vectoroids%201.1.0/?id=14663>

"Vectoroids" is a vector-based rock-shooting game similar to the arcade classic "Asteroids." It is an SDL game based on the source for "Agendaroids," an X-Window game written for the Agenda VR3 Linux-based PDA written by the same author.
