Jesus Christ! Finally, a game to honour both my parents have been completed. Here in this edition is the final release to Gunner. I hope you have a little bit of fun anyways. You can make it challenging or easy by using the targetting or the ship. It's up to you. Obviously the ship will be harder while the targetting will be super easy even without cheat mode. God bless my mother for working so hard although she is 63 years old. Her name is Huong Thi Vu. She cooks and I wish she would relax, and she has grandkids to take care of. I also would like to mention my real dad Nguyen Binh Thuy for bringing us over to America where we are filled with the opportunity to enjoy our lives.
