#### Font Printer 1.0

<http://vetusware.com/download/Font%20Printer%201.0/?id=14976>

Font Printer is a shareware program for Microsoft Windows that allows you to easily print the complete character set in one or more selected fonts. In addition to printing font samples you can also view samples of screen fonts. Font Printer lets you choose 1 or more fonts to be printed from the available printer fonts installed on your system. This program is especially useful if you have a bunch of fonts available through Adobe Type Manager. This is the main reason that I wrote this. Font Printer makes it easy to print a sample of all characters including the extended characters in the specified font.

#### Headstart III Master Disk Drivers Utilities

<http://vetusware.com/download/Headstart%20III%20Master%20Disk%20Drivers%20Utilities/?id=14975>

The five master diskettes shipped with the Vendex Headstart III in 1989.

#### Vendex HeadStart Plus System Disks 3.20
