W6 1.7

<http://vetusware.com/download/W6%201.7/?id=15606>

W6 (or What Went Wrong, its a World Wide War!) - a stupid and lousy wargame for the BeOS (R4, x86) in the style of "Risk" --- the package contains libs "libatalk.so" & "libnetdev.so" (demanded by different apps).
