<http://vetusware.com/download/NexGen%20Utilities%203.0/?id=15637>

Small collection of utilities provided by NexGen for support. Includes readme file, NexGen Nx586 VL Flash Utility 2.0, NexGen VL BIOS (V06E033W.PRD), Windows CPU Identifier 2.0, DOS CPU Identifier 2.0, Game Assistant 2.0, PC-Check Lite, and Q87 for FPU support. The non NexGen utilities are shareware AFAIK.
