WinText and WinTime Demo 6/13/1988

<http://vetusware.com/download/WinText%20and%20WinTime%20Demo%206131988/?id=15699>

This is a demo disk that contains limited functional demonstration versions of the Palantir Wintext Word Processor and WinTime resource scheduling application. The demo version does not include the spell checker. These programs run under Windows 1.03. WinText's primary claim to fame is it was advertised as the first word processor for Windows other than Write.
