Gravity Strike 1.02

<http://vetusware.com/download/Gravity%20Strike%201.02/?id=15703>

This is an updated version of the Amiga 500 game Gravity Force written by a private developer. The developer claims that it runs on all windows versions from 95 to ME. Note that the windows version is reportedly buggy by the developer. Also, to run this version you will need the normal version. Also, the dos version is reported to run in a Windows 95-ME terminal.
