Fastwel DOS 6.22-2001

<http://vetusware.com/download/Fastwel%20DOS%206.22-2001/?id=15895>

This is a Fastwel DOS boot disk, it's a MS-DOS compatible OS that is used in embedded systems, looks like a modified PC-DOS, read \FDOS\FDOS.DOC to configure.

Fastwel DOS 6.22-2005

<http://vetusware.com/download/Fastwel%20DOS%206.22-2005/?id=15896>

This is a Fastwel DOS boot disk, it's a MS-DOS compatible OS that is used in embedded systems, looks like a modified PC-DOS, read \FDOS\FDOS.pdf to configure.
