#### Ironman Offroad Racing

<http://vetusware.com/download/Ironman%20Offroad%20Racing/?id=16108>

Ironman Super Offroad is an old dos game, published in 1988 by Virgin Interactive Ent.. Main genre of this old game is racing. We gave this game stunning rating of 83 and you can download it for free right here. The game got its name after a racer with a similar nickname: Ivan "Ironman" Stewart. As the name itself says, it is an off-road race game. However, you will not ride outside in the countryside, but in the halls, on a build tracks. For each race won you get an interesting reward - at first, there are just points and later you gain money, so you can upgrade your car and thereby increase your chances of successfully winning the next race.
