WinGraph 1.02.01

<http://vetusware.com/download/WinGraph%201.02.01/?id=16255>

WinGraph is a rudimentary business graphing presentation program for Microsoft Windows 2. It can edit and display up to four graphs at a time, and supports export to Halo CUT files. Although it is intended for use under Windows 2, it will run under Windows 1.x.
