Microsoft Visual Basic 1.0 for DOS 1.0

<https://vetusware.com/download/Microsoft%20Visual%20Basic%201.0%20for%20DOS%201.0/?id=16438>

Microsoft Visual Basic 1.0 for DOS is unique in that it was the only version released for something other than Microsoft Windows. VB for DOS uses the text video mode, but provides forms and UI controls similar to Windows. This product replaces Microsoft BASIC Professional Development System 7.1.
