DUNCE 2.52

<https://vetusware.com/download/DUNCE%202.52/?id=16487>

Dunce (or Dial-Up Networking Connection Enhancement) allows for much easier dial-up networking than Win95 currently provides. The program will automatically press &quot;connect&quot; for you on the &quot;Connect To&quot; dialog box, redial your Internet Provider indefinitely (even from within another application), and auto-reconnect if you get unexpectedly dropped.
