QuickWare Q87 (Q387) FPU Math Accelerator and Emulator 4.13

[https://vetusware.com/download/QuickWare%20Q87%20\\_Q387\\_%20FPU%20Math%20Accelerator%20and%20Emulator%204.13/?id=16613](https://vetusware.com/download/QuickWare%20Q87%20_Q387_%20FPU%20Math%20Accelerator%20and%20Emulator%204.13/?id=16613)

Q87 (Q387) V4.13 FPU Math Accelerator and Emulator For DOS, Windows 3.x, and Windows 95. Run all ACADs & games without a coprocessor. Now runs QUAKE! It's slow, but it works! Up to 400% faster graphics, CAD, etc. Requires a 386SX+, 1.5 Mb RAM+, and DOS 5 or 6. This is a 20 minute demo, with a quick and inexpensive upgrade available.

SY-TOS 1.00 (IBM 6157)

[https://vetusware.com/download/SY-TOS%201.00%20\\_IBM%206157\\_/?id=16614](https://vetusware.com/download/SY-TOS%201.00%20_IBM%206157_/?id=16614)

SY-TOS is a powerful backup program for DOS, and other operating systems. It was commonly customized for and bundled with OEM backup hardware. SY-TOS Plus was the first retail standalone version. This release is designed only for use with an IBM 6157 Streaming Tape Drive.

Visi On Plan 1.2

<https://vetusware.com/download/Visi%20On%20Plan%201.2/?id=16615>

Visi On Plan, formerly Visi On Calc, is a spreadsheet that runs under the Visi On graphical operating environment. This does not seem to work under the original release of Visi-On. It is believed that a revised Visi On Application Manger labeled as Version 1.0(1) is required.
