AUMenu 1.4.3b

<https://vetusware.com/download/AUMenu%201.4.3b/?id=16880>

AUMenu is a multi-platform menu shell. It creates an environment that is easily understood. You simply select from a list of numbered items by using the arrow keys or keying in the number of an item, then pressing the enter key to execute the command. Another means of selection is a hot key character that can be assigned for each menu item. Pressing a hot key character immediately executes its associated item. Menus are created with the AUMenu script language. The AUMenu script language is easy to learn and use.

Ontrack Disk Manager 4.20 4.2

<https://vetusware.com/download/Ontrack%20Disk%20Manager%204.20%204.2/?id=16881>

Ontrack Disk Manager and Disk Manager Diagnostics v4.20. A DOS-based disk utility that can diagnose hard disks and floppy disks.

PIMS v9 1987 Orthodontic Computer Software v9.0

<https://vetusware.com/download/PIMS%20v9%201987%20Orthodontic%20Computer%20Software%20v9.0/?id=16882>

Orthodontic Computer Software database software. There were two update disks dated 1-27-88, but are very damaged. If I get them cleaned and fixed, I'll post on a separate post.

PIMS v9 1987 Orthodontic Computer Software v9.0 with UPDATE disk v9.0

<https://vetusware.com/download/PIMS%20v9%201987%20Orthodontic%20Computer%20Software%20v9.0%20with%20UPDATE%20disk%20v9.0/?id=16883>

Orthodontic Computer Software database software. Fixed the two update disks, and included them along with photos of the disks inside the rar package. Needs DOS 2.x or 3.x, so you'll need to use setver.exe DOS command to include something like "SETVER ISAM.EXE 3.30" to run the software.
