LAN Workplace for DOS 4.2
https://vetusware.com/download/LAN%20Workplace%20for%20DOS%204.2/?id=17226
Supports IPX and TCP, and also Win3.1 and WFW3.11. 4 disks plus patches.   The product is designed to take advantage of Novell's VLM client technology. The VLM client software replaces the NETX shell and its associated MS Windows files. The installation program no longer installs the NETX client software.

PCBoard 1.5
