XEphem 4.1.0 amd64

<https://vetusware.com/download/XEphem%204.1.0%20amd64/?id=17369>

XEphem .deb installer (4.1.0-2\_amd64) for Debian-based systems (L. Sanocki). (XEphem is an outstanding Motif based ephemeris and planetarium program for Unix-like operating systems developed by Elwood C. Downey and now released under MIT Open Source license). Catalogs: <https://github.com/XEphem/Catalogs>
