PCFM 4.0

<https://vetusware.com/download/PCFM%204.0/?id=17412>

This is the Windows NT 32-bit driver program for Gemtek's PCFM/Wizard Radio (WR100) serial port radio in English, Chinese, German and Spanish. It installs and runs in Windows 10 64bit but haven't tested it due to lack of working serial port.
