GlobalView for Windows 2.3 (JA)

<https://vetusware.com/download/GlobalView%20for%20Windows%202.3%20JA/?id=17436>

THE latest version of the ViewPoint/GlobalView product tree to be ever released, this specific version was only available in Japan, released by Fuji Xerox for specific companies. See README.txt in 7z file for more info (including serial keys & install instructions). (Also yes, if you have any questions: GVWIN 2.2 also exists as a patch-only release for GVWIN 2.1. So, the statement about "GVWIN 2.1 being the final release" is incorrect!)
