Novell Netware 2.15 Rev C 2.15 Rev C

<https://vetusware.com/download/Novell%20Netware%202.15%20Rev%20C%202.15%20Rev%20C/?id=17440>

Novell Netware 2.15 Rev C as a re-upload. The original upload had two corrupt floppy images. These files can be read by VirtualBox as 360k floppy disks. To install, boot to DOS 3.3 (as a virtual disk) then insert the NETGEN disk, and run NETGEN.EXE.
