SHIP FACTORY With the Ship Factory, you can compare the characteristics of all the ships in the game and also make custom ships for use in Inner Space!

Wordperfect para Windows 5.1 (ES)

El éxito de Windows 3.0 cogió a WordPerfect distraído y se nota ... En esta primera versión para Windows el programa de instalación es para DOS y no funciona bajo Windows, no hay soporte de OLE, es lento, tiene errores ... Tampoco es que sea horrible pero no era competencia para Word 2.0 Lo vuelvo a subir porque el enlace de descarga original está roto.
