Drift terminal emulator for Windows 2000

<https://vetusware.com/download/Drift%20terminal%20emulator%20for%20Windows%202000/?id=17504>

The 'Drift' terminal emulator for Windows. Universally used within Telcom Australia/Telstra by ALL staff, at the time it was simply the BEST terminal emulator available. X.25/serial/TCPIP all supported. HP 2392, IBM3270/3278/VT100/VT200/UTS40/VIP7750/VIP7814 terminal types. All supports VB/C API programming. Tested just now on Windows 7 32 bit and works OK. Also supports 122 key keyboards (24 function key IBM layout).
