Paint Shop Pro X

<https://vetusware.com/download/Paint%20Shop%20Pro%20X/?id=17831>

Tried and tested on a virtual Windows XP (SP3) system, running on VirtualBox under a Windows 10 Host system. Should probably also work on genuine vintage hardware natively running Windows XP SP3. CD \*.iso image, &quot;COREL\_PSP\_X.iso&quot; and serial number (text file) are located in the downloadable \*.zip file.
