Paint Shop Pro 32bit 3.12 JASC Inc. December 27, 1995 System: Win 3.1 with Win32s, Windows NT, Windows 95, Windows 98 A world famous graphics editor. In all the years since it's release, I've never come across a FULL version of v3.12. I have seen some awful hacks/cracks though.

Mysterious crashes, weird anti-hacking applied to the EXE. See Upload.txt for information.
