DataBoss for Windows 1.01

<https://vetusware.com/download/DataBoss%20for%20Windows%201.01/?id=18148>

Generates a database with Windows interface. Installed on XP and runs fine with Visual C++ 1.5 installed. Set environment variables in system shown in MSVCVARS.BAT. Be sure to select the default icon provided or one you generate or it can easily give you a zero length icon file which will then fail the RC compile.
